Roblox was created by a company called Ellation. According to Wikipedia, Ellation is a gaming production company based in San Francisco, California. They started out with games that were mainly for children but now have many different types of games in which you can play with your friends and family. Some of the games have mini-games where you can buy special items or earn coins in order to unlock new areas or items. The idea behind robux is that players can earn robux by playing and participating in the game universe. With this system, players do not need to spend money on anything; they just collect more robux as they play in the game. Robux is the virtual currency of Roblox and can be bought in packages or earned in-game.

Things that would make you successful weren't free; they required you to work hard for them. But they were worth the wait, because it would mean you'd gather more items over time, and then you could make your house bigger or better fortified. The game was about connecting with your friends, and making sure that they were safe and able to live their own lives in the Minecraft world as well.

ROBLOX has also been compared to popular game Minecraft.
